

Used Laptop Inspection Report

Detailed Hardware and Buyer Inspection • v2.3

HP HP EliteBook 820 G4

OVERALL BUYER SCORE

93 / 100

EXCELLENT

RAM below 16 GB

BATTERY HEALTH

N/A%

Battery capacity was not reported.

RAM

15.9 GB

8 GB is usable; 16 GB+ is preferable for modern multitasking.

WINSPR

5.6

Windows performance index when available.

1. Processor — Detailed

Processor	Intel(R) Core(TM) i5-7200U CPU @ 2.50GHz
CPU Family	Intel Core
Generation / Series	7th Gen
Suffix	U
Category	Mobile • Power Efficient
Cores / Threads	2 / 4
Max Clock	2712 MHz

What the suffix means

Suffix	Power	Best Used For	Video without dedicated GPU?	Category
Y	Very Low	Basic portable work	Usually yes	Extremely low power
HK	High	High-end gaming/work	Usually yes	High-performance mobile + unlocked
HX	Very High	Maximum laptop performance	Usually yes	Extreme mobile performance
T	Lower	Efficient desktop	Usually yes*	Power optimized desktop
U	Low	Office, travel, long battery life	Usually yes	Power-efficient mobile
P	Medium	Thin/light performance laptops	Usually yes	Performance thin/light
KF	High	Gaming + dedicated GPU	No	Unlocked + requires discrete graphics
F	High	Desktop + dedicated GPU	No	Requires discrete graphics
K	High	Desktop gaming / overclocking	Usually yes*	Unlocked desktop

H	High	Gaming, editing, demanding work	Usually yes	High- performance mobile
----------	------	------------------------------------	----------------	--------------------------------

The exact integrated-graphics capability depends on the processor model. An F-series Intel desktop CPU does not provide integrated graphics; verify the exact CPU before making a buying decision.

2. Battery — Detailed

Battery detected	Yes
Design Capacity	N/A mWh
Full Charge Capacity	N/A mWh
Calculated Health	N/A%
Cycle Count	N/A
Status	OK

Health = Full Charge Capacity ÷ Design Capacity × 100.

4. Storage — Detailed

Windows Disk Information	AZEK SSD 512GB • 477 GB • Fixed hard disk media • IDE
Physical Disk Information	AZEK SSD 512GB • SSD • 477 GB • Health: Healthy • Bus: SATA

SSD storage is normally preferred for faster boot and application loading. A mechanical HDD deserves extra scrutiny in a modern used laptop.

5. Graphics — Detailed

GPU Information	Intel(R) HD Graphics 620 • VRAM: 1 GB • Driver: 31.0.101.2140 • 1366x768 @ 60 Hz
------------------------	--

GPU performance depends on the exact chip, VRAM, power limit, cooling and driver.

6. Display / Monitor

Detected Monitor(s)	• Serial: 4800000000000000
---------------------	----------------------------

PHYSICAL TEST REQUIRED Check dead pixels, brightness, backlight bleed, flicker, hinges and touch functionality.

7. Windows Performance

CPU Score	8.6
Memory Score	8.6
Graphics Score	5.6
Gaming Graphics	9.9
Disk Score	8
WinSPR	5.6

8. Motherboard / BIOS

Motherboard	HP • 8292
BIOS Version	P78 Ver. 01.48
BIOS Date	10/05/2023 05:00:00
Serial Number	5CG8366N0C

9. Windows and Security

Windows Edition	Microsoft Windows 11 Pro
-----------------	--------------------------

Windows Version	10.0.26200
Activation	Activated
TPM	Present • Ready: True • Version: 7.62.3126.0
Secure Boot	Not available / Legacy BIOS

10. Network

Network Adapters	Ethernet • Intel(R) Ethernet Connection (4) I219-V • Disconnected • 0 bps Wi-Fi • Intel(R) Dual Band Wireless-AC 8265 • Up • 117 Mbps
------------------	--

11. Physical Buyer Checklist

Screen	TEST Dead pixels, brightness, bleed, hinges
Keyboard / Touchpad	TEST Every key, click and gesture
Ports	TEST USB, USB-C, HDMI, audio, charging
Camera / Mic / Speakers	TEST Record and playback
Wi-Fi / Bluetooth	TEST Connect to real devices
Thermals	TEST Fan noise and temperature under load
Charger	TEST Correct charger and stable charging
Hinges / Body	TEST Cracks, loose hinges, repair marks
